Short description of institution

Slobomir P University as the first private institution of higher education in Bosnia and Herzegovina was established in 2003. Now, eleven years later, Slobomir P University became the recognizable brand in the field of education and science, and its big family and the campuses in Slobomir and Doboje consists of six faculties:

- Faculty of Economics and Management,
- Faculty of Information Technologies,
- Faculty of Law departments,
- Faculty of Philology,
- Fiscal Academy,
- Academy of Arts.

Slobomir P University has so far brought VIII generation of students, a total of 1188 acquired a degree of this University.

From the very beginning the University functions according to the principles of Bologna declaration. All the subjects are on term, the exams are taken partially via test and other ways of knowledge assessment. The application of the European credit transfer system (ECTS), i.e. the score system enables our students to eventually go to some other academic institutions anywhere in Europe, but also the arrival of foreign students to our University. Students have at their disposal the modernly designed classrooms with all the necessary equipment, restaurants, halls with Internet connection, library, etc. The accommodation in the dorm is provided for the students who come from the other cities.

The education of staff, who will after the studies make a prestigious working and living career, requires high standards, by which this university is led. Firstly, that is the highly professional education staff, so the lecturers at the faculty are competent and respectable science workers. In their fields they achieved exceptional results, not only in education, but also in science-research work. One of the privileges that students at Slobomir P University have is the possibility to follow the lessons in the realization of foreign professors and a great number of guest professors. So far this University achieved many significant goals, like the licensing of education plans and programs, establishment of partnership with the respectable universities and business schools from abroad, the creation of the company net with which they cooperate and the increase of the number of study programs, designed to fulfill the requirements of the contemporary business.

Field of interest for cooperation within Erasmus+ programme
